Dedicated, creative, and highly motivated Full-stack developer with 5+ years experience in software architecture and development using a range of technologies and programming languages—ability to be a team player with good communication skills to resolve complex problems. Seek to leverage broad development experience and hands-on technical expertise in a challenging role as a Full-stack Developer.

PROFESSIONAL EXPERIENCE

Timcheh, Tehran, Iran • Front-end Team Lead

12/2020 - Present

- o Create learning opportunities within the team through training and mentorship in the projects.
- o Manage work intake through scrum agile development process, including sprint planning, effort estimation, and daily sessions, improving the process to maximize team performance by 40%.
- o Conduct the technical interview.
- o Collaborate with leads to explore existing systems and software architectures, determining areas of complexity and potential risks to successful implementation.

Lendo, Tehran, Iran • Front-end Team Lead

09/2020 - 12/2020

- o Analyze high-end frontend technologies and motivate team members to learn and stay on top of trends.
- o Study top e-commerce markets leading to revamp customer experience.
- o Create a better development environment, workflows, Git flow, and CI/CD automation.
- o Code review to ensure quality assurance.

Lendo, Tehran, Iran • Full-stack Developer

08/2019 - 09/2020

- o Modernize front-end stack from jQuery to React and Typescript leading to make reusable components and better maintenance.
- o Improve the quality of a legacy Laravel codebase through constant refactoring.
- o Conduct TDD and BDD best practices as an internal part of delivering software development.
- o Work collaboratively in a team of designers and developers to create RESTful services using Symfony 4 and Next.js + Typescript to fill the gap between the business and investors.

DPR, Tehran, Iran • Full-stack Developer

08/2018 - 08/2019

- o Implement online and offline timeclock platform using Laravel, Vue.js, and React Native to replace excel timesheets, which made a new revenue stream for the company.
- o Create a library to port Java epub parser to React Native for an online book store project.
- o Redesign and develop a WHMCS template using Nuxt.js and a custom API proxy using Node JS leading to %50 more customer experience satisfaction (according to Hotjar).

AbzarMart, Tehran, Iran • Full-stack Magento Developer

03/2017 - 08/2018

- o Work with an established team of designers to create a fully customized Magento template.
- o Dockerize and integrate Magento with OpenStack to scale quickly and automatically through the least connection strategy to fix current downtime and deliver high availability in rush hours.
- o Analyze, design, and develop several Magento extensions such as complete customized inventory management, business to business sales.
- o Develop Integrations with API-driven third-party systems.
